

SAEB MASARWA

Web Developer

I'm a passionate and results driven full-stack developer with a strong foundation in both front-end and back-end technologies.

My journey in development began 2 years ago, and I have since honed my skills to become a proficient and adaptable developer. Proficient in multiple programming languages. Strong problem-solving skills and ability to work effectively in a team-based environment and alone.

EDUCATION HISTORY

Full Stack Web Developer

Institution: HackerU- 2025

- 535 hours of hands-on projects and training

PROJECTS EXPERIENCE

Full Stack Web Developer

December 2024 (1 month)

- Designed and developed a full-stack web application using React.js, Node.js, and Express.js
- Built a secure back-end API to manage user data and cards with CRUD operations
- Implemented responsive front-end components and ensured mobile compatibility
- Employed Git for version control and collaborative development

Mobile Developer - Independant

November 2024 to present (4+ months)

- Created a mobile app using React Native and Expo for logging daily surveying work
- Added geolocation-based functionality converting coordinates to Waze links
- Developed a RESTful back-end to store and manage surveyor entries efficiently
- Focused on clean UI/UX

n8n AI Agent - Independant

July 2025 to October 2025 (4 months)

- Created a mobile app using React Native and Expo for logging daily surveying work
- Added geolocation-based functionality converting coordinates to Waze links
